and Cooperation SDC

OBJECTIVES

Supranational necessity based on international data is converted into local policy, supported by representatives of the Quintuple Helix

A broad base for future action in any region of the World with the emphasis placed on incorporating the implication of cultural stakeholders, youth and women groups and Small and Medium-sized Enterprises

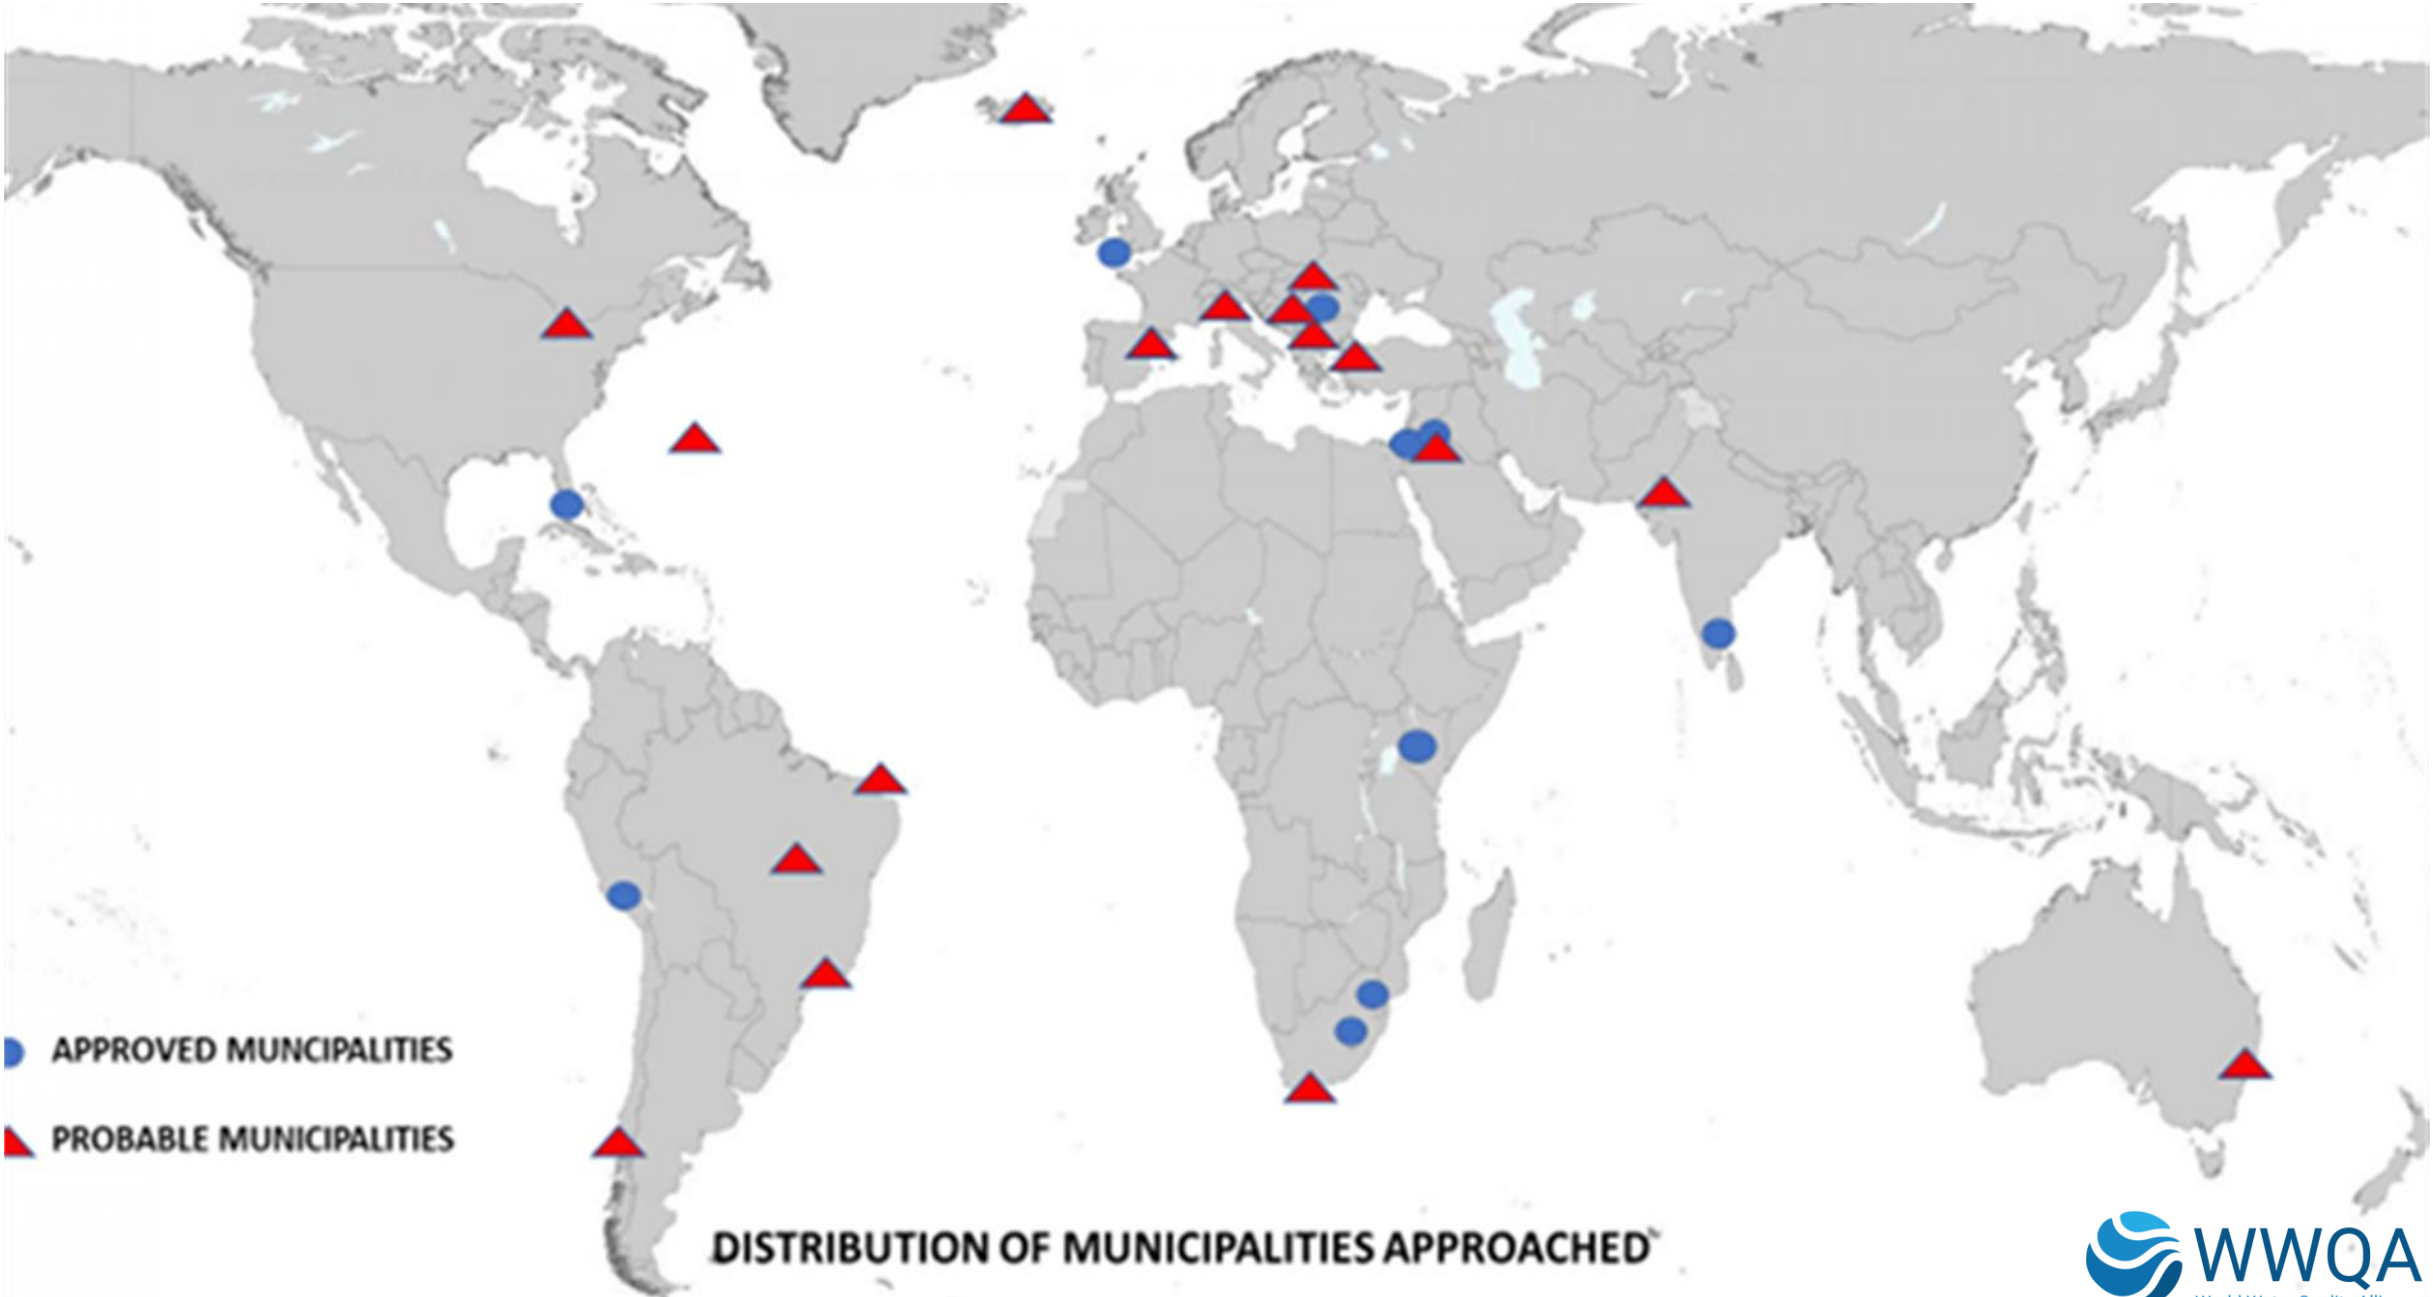

True inter-sectoral collaboration between water and all other elements of a sustainable community, including energy, food, and the ecosystem (WEFE Nexus), waste, transport, the field of digitalization, the health sector, social sciences and employment

Inter-regional knowledge transfer and exchange between Local Water Forums and the strengthening of the perception of a Global Water Community.

The communication of complex scientific data to the hitherto uniformed layman, politician and other social actors

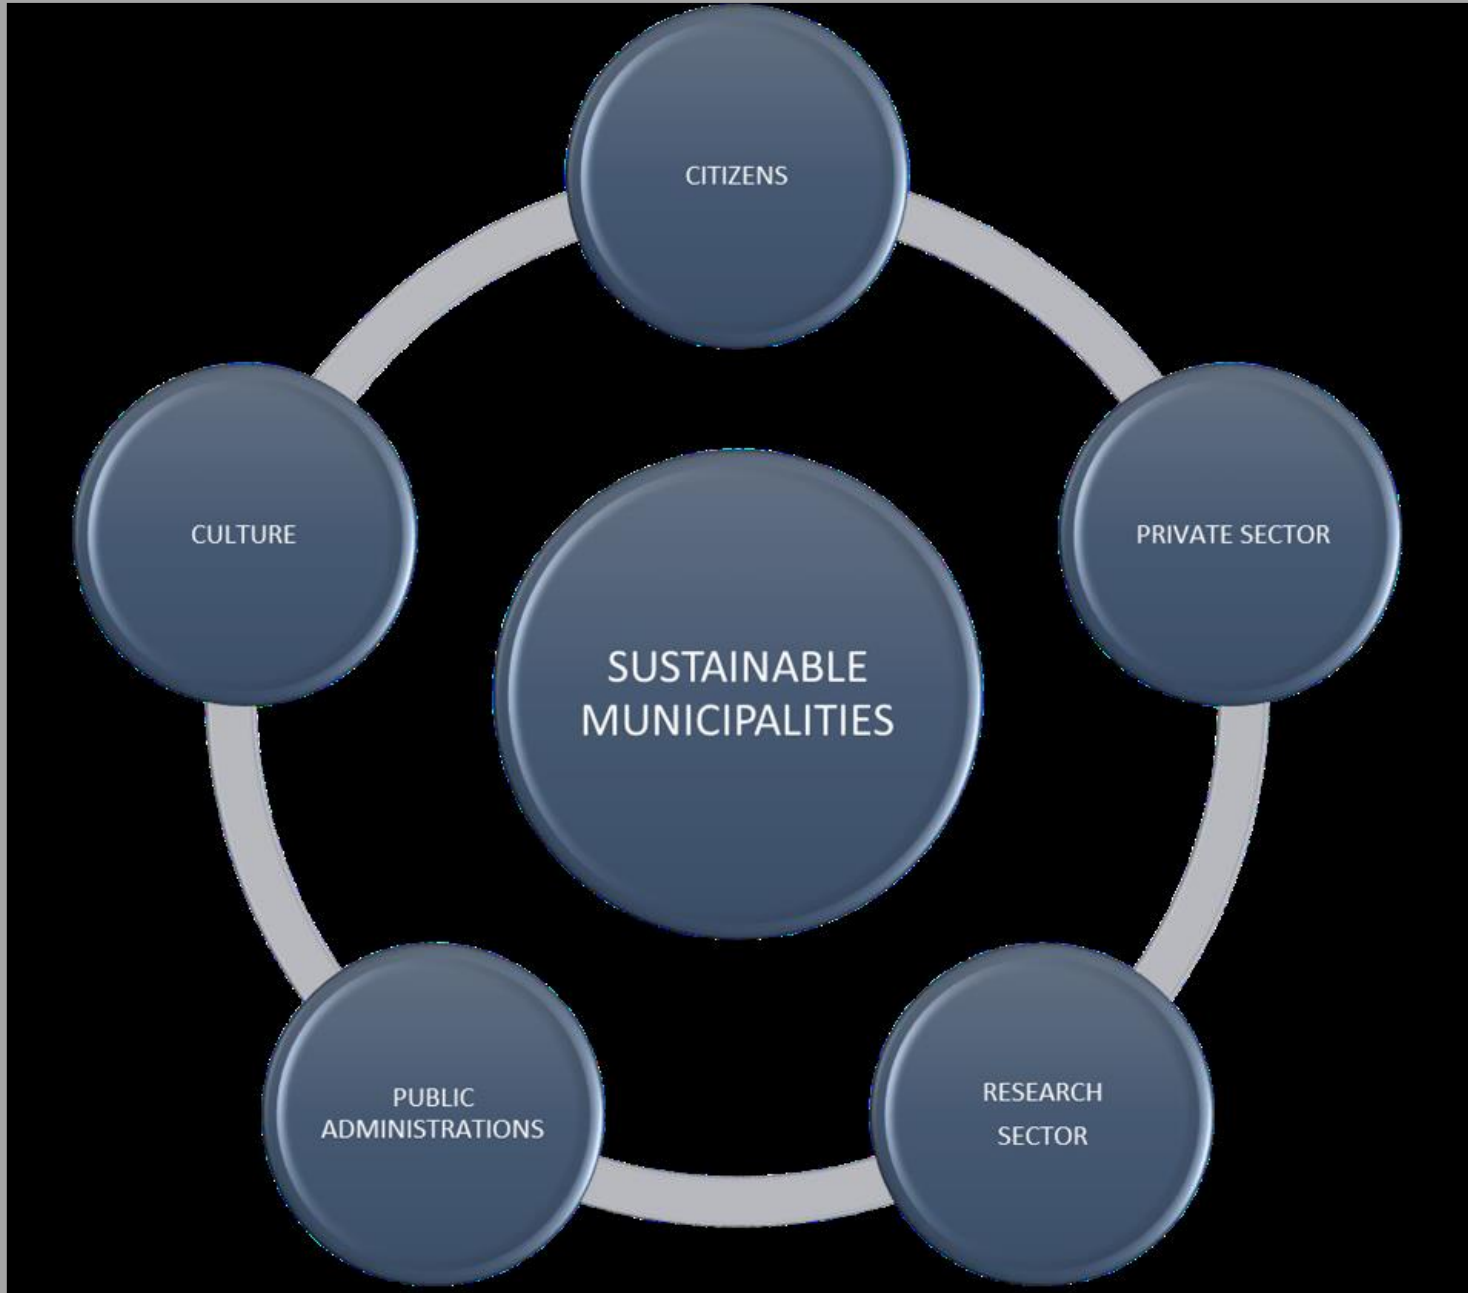

Mutual support to and collaboration with the other work streams of the WWQA.

- APPROVED MUNICIPALITIES
- ▲ PROBABLE MUNICIPALITIES

DISTRIBUTION OF MUNICIPALITIES APPROACHED

THE LOCAL WATER FORUM
