

GLOBAL SURVEY OF LAKE RESTORATION IN PRACTICE

Photo Credits: Erik Schnetzler

The World Water Quality Alliance, Ecosystems Workstream established to support large-scale restoration initiatives to prevent, halt and redress the destruction of our freshwater ecosystems, focusing initially on water quality management in lakes and their catchments invite you to participate in a GLOBAL SURVEY OF LAKE RESTORATION IN PRACTICE.

The data collected in this survey will be aggregated and evaluated without reference to individuals. You are welcome to share this survey with other interested practitioners.
