

Supply Change: Promoting Reduction of Deforestation Impacts of Commodity Supply Chains

Environmental, Social and Economic Review Note (ESERN)

United Nations
Environment Programme

I. Project Overview

Identification	9858
Project Title	Supply Change: Promoting Reduction of Deforestation Impacts of Commodity Supply Chains
Managing Division	Ecosystems Division
Type /Location	Global
Region	Global
List Countries	Global
Project Description	<p>Project objective is to increase the transparency, accountability and impact of several hundred commodity production companies' commitments to sustainable, low- and zero-deforestation production on behalf of government, NGO and other stakeholders who require this information in order to keep both a spotlight and pressure on companies' efforts to reduce their impacts on forests with the specific intent of protecting forests and protecting the globally significant biodiversity that depends on those forests.</p> <p>The lack of transparency and accountability, at the company level and at the country, jurisdictional and producer levels, is exactly the challenge that Supply Change seeks to address and reverse through this project. Under this project, the partner will acquire new data tracking and analytical capabilities to fulfill the specific outcomes: Increased transparency and awareness about, effective tracking and accountability for, and visibility and pressure on the companies making sustainability commitments to low- or zero-deforestation, including the impacts and results of those commitments on the protection of forests and on the globally significant forest-dependent biodiversity.</p>
Estimated duration of project:	2018-2029

Estimated cost of the project :	GEF Grant: 1,000,000 Co-finance: 2,000,000
Funding Source:	GEF

II. Environmental Social and Economic Screening Determination

Summary of the Safeguard Risks Triggered

Safeguard Standard Triggered by the Project	Impact of Risk (1-5)	Probability of Risk (1-5)	Significance of Risk (L, M, H)*
SS 1: Biodiversity, natural habitat and Sustainable Management of Living Resources	1	1	L
SS 2: Resource Efficiency, Pollution Prevention and Management of Chemicals and Wastes	1	1	L
SS 3: Safety of Dams	1	1	L
SS 4: Involuntary resettlement	1	1	L
SS 5: Indigenous peoples	1	1	L
SS 6: Labor and working conditions	1	1	L
SS 7: Cultural Heritage	1	1	L
SS 8: Gender equity	1	1	L
SS 9: Economic Sustainability	1	1	L
Additional Safeguard questions for projects seeking GCF-funding (Section IV)	NA	NA	NA

*Refer to the UNEP ESES Framework (Chapter 2) and the UNEP's ESES Guidelines

ESE Screening Decision

<input checked="" type="checkbox"/> Low risk	<input type="checkbox"/> Moderate risk	<input type="checkbox"/> High risk	<input type="checkbox"/> Additional information required
