Environment Programme

I. Project Overview

Identification	9809
Project Title	Building core capacity for the implementation, monitoring and reporting of Multilateral Environmental Agreements (MEAs) and relevant Sustainable Development Goals (SDGs) in Botswana
Managing Division	Science Division
Type /Location	National
Region	Africa
List Countries	Benin
Project Description	<p>The proposed project will enhance Botswana's core capacity to implement MEAs and by extension SDGs. The added value of the proposed GEF support is its ability to provide a common platform for the management of environmental information and coordination of MEA implementation, thereby supporting the achievement of global environmental benefits.</p> <p>The project will strengthen a coordinated environmental knowledge and information management system and enhance institutional and technical capacities to mainstream, develop, and utilize policies for effective implementation of the Rio Conventions, other MEAs and relevant SDGs.</p> <p>The project is in line with the comparative advantage of UN Environment and its Programme of Work, particularly sub-programme 7 on Environment Under Review. The project will build upon existing national and global information systems and platforms such as UNEP Live.</p>
Estimated duration of project:	January 2018 – December 2020
Estimated cost of the project :	<p>GEF Grant: 1,150,000 USD</p> <p>Co-finance: 300,000 USD</p>
Funding Source:	GEF
